

# Expanded Horizons 2024-2025 Seasonal Recap

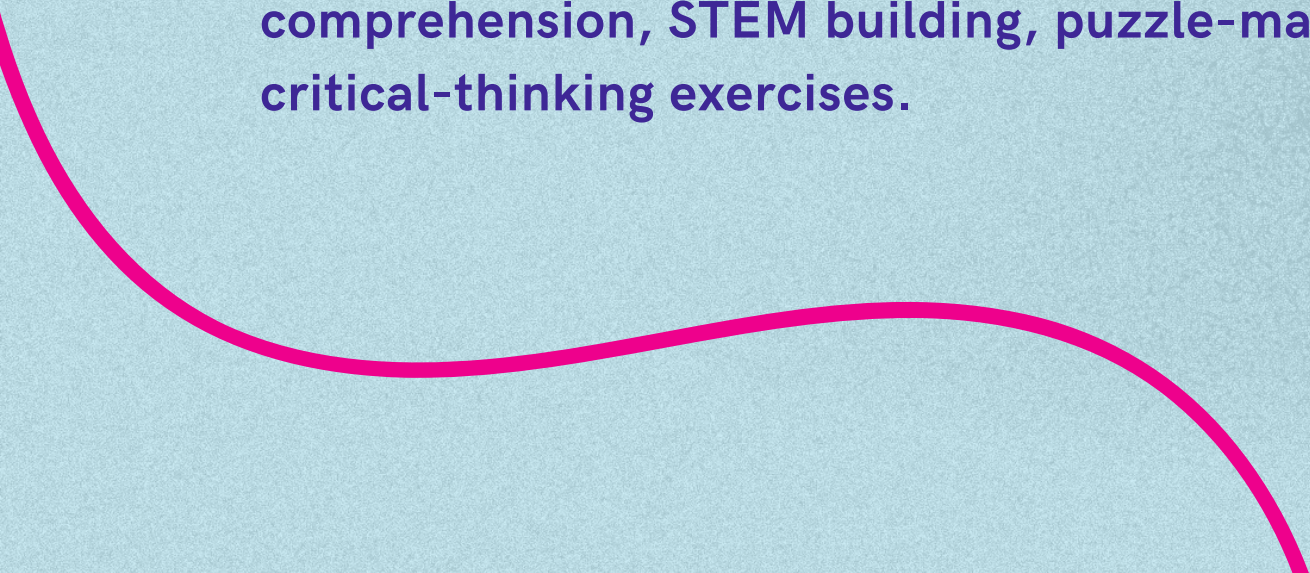

# 2025 has given

Expanded Horizons record breaking student attendance at our end of the year 2024 holiday celebrations, 2025 after-school programs and this summer's learning initiatives. Our year long curriculum continues to serve students by building their confidence in reading comprehension, STEM building, puzzle-making, arts & crafts and critical-thinking exercises.

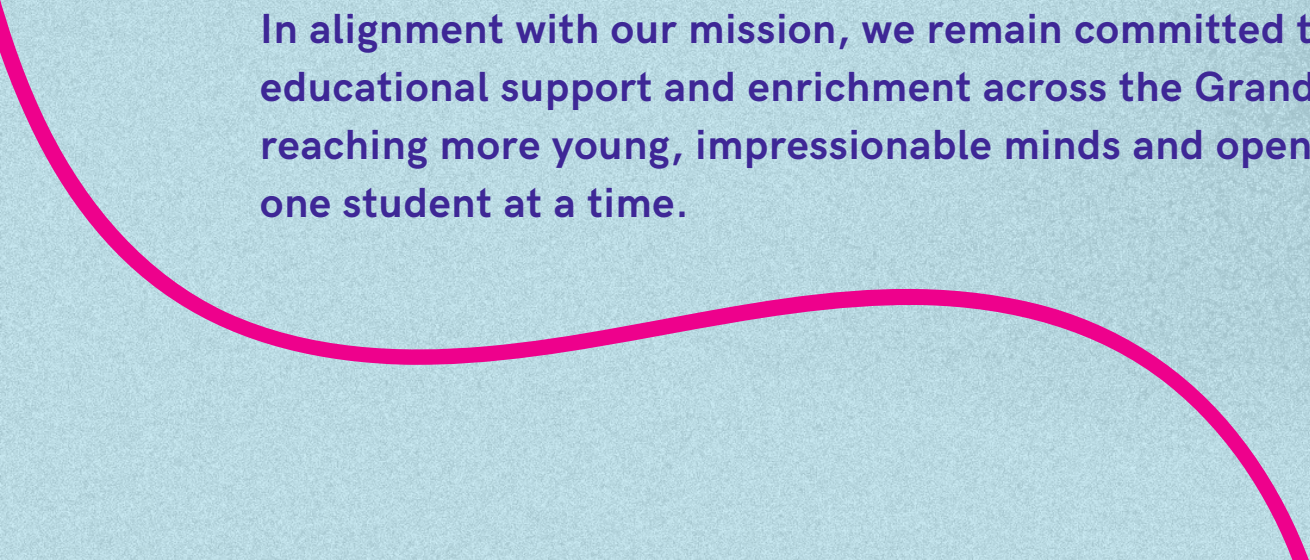

# We are Expanding!

This year marks a significant milestone in Expanded Horizons' journey of growth and impact. We are proud to announce that the Dalworth Recreation Center has officially become our primary program site, serving 100 students throughout the year.

In alignment with our mission, we remain committed to expanding access to educational support and enrichment across the Grand Prairie community—reaching more young, impressionable minds and opening new doors to learning, one student at a time.

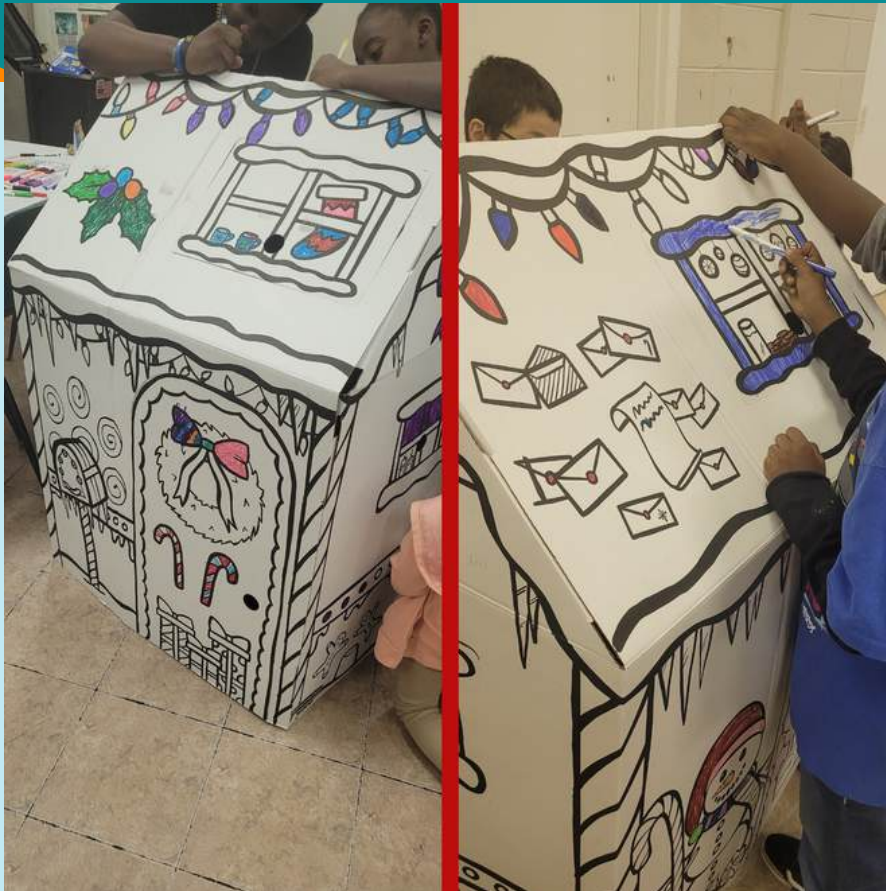

# Holiday Celebration

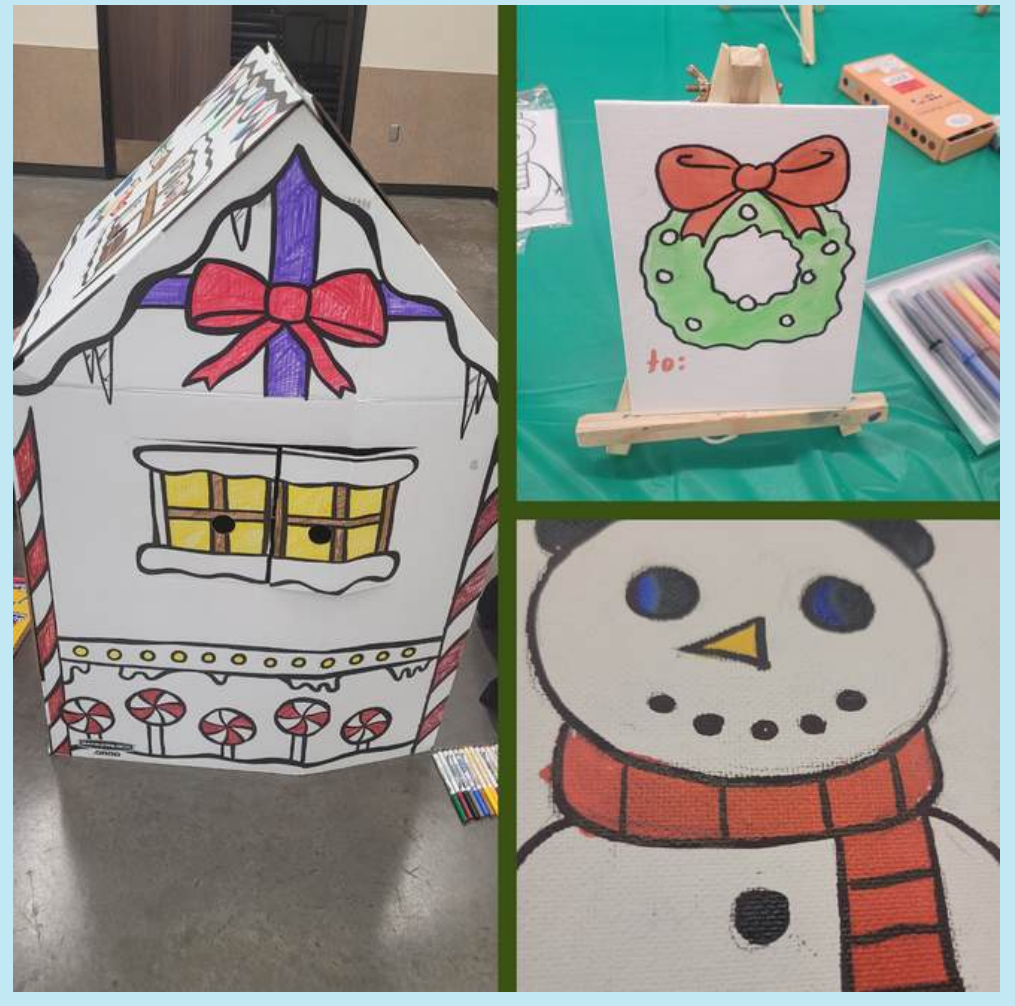

Expanded Horizons wrapped up a meaningful and successful holiday season, dedicated to bringing joy and care to our EH students.

Thanks to the unwavering support of our incredible partners, volunteers, sponsors, and community members, we were able to create a holiday experience that was warm, memorable, and deeply thoughtful for every student we serve.

Support came through in many generous forms—from thoughtful toy donations and food sponsorships to volunteers lending their time and energy to wrap gifts. Each contribution played a vital role in making this season truly special.

# EH Student Spotlight: Graduation Celebration

We are pleased to announce and celebrate the high school graduation of our Admin Aide, **Tracy Kelley!**

## *Fun Facts About Tracy:*

- Will begin studying at Dallas College
- Will be studying to be an Architect
- Works full time while serving as EH's Admin Aide since 2022
- Started as an EH student in the 3<sup>rd</sup> grade

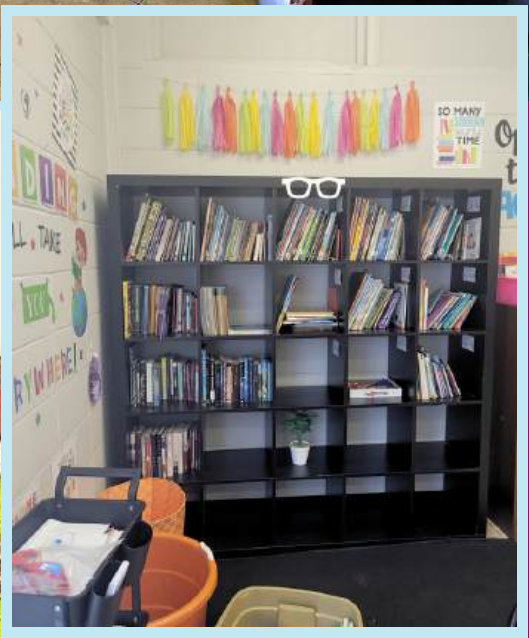

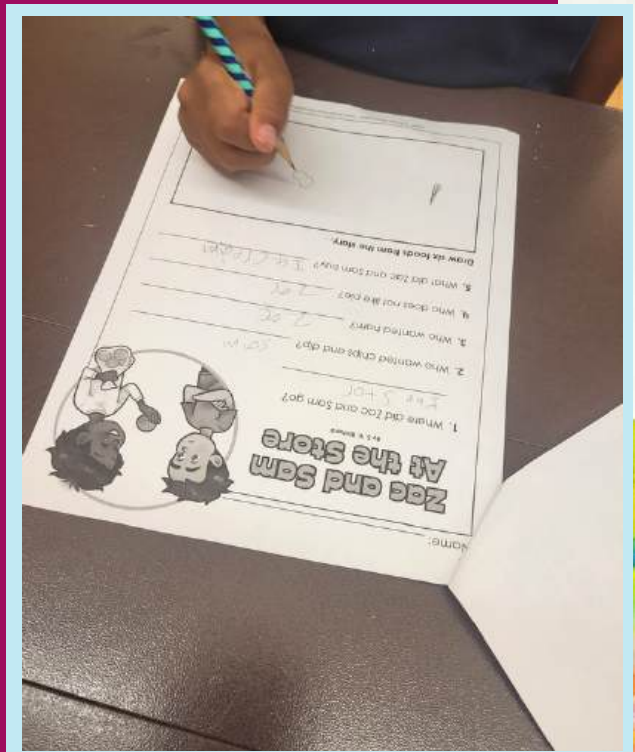

Our summer programs run from late June through late July, taking place every Monday, Wednesday & Thursday. This year our team traveled to four different locations including Clayton Marks Apartment Complex, Dalworth Recreation Center, Charley Taylor Recreation Center and The Boy's & Girl's Club of Grand Prairie, to serve over 250 students. At each of these learning sites, we offered a fun-filled lineup of enrichment activities, sponsored snacks and drinks, exciting prizes, and engaging games.

One of the highlights of our summer programming has been the Summer Readathon—a fun, friendly competition that encourages students to dive into as many books as possible before heading back to school. We believe books are powerful gateways to new ideas, knowledge, and self-discovery—and at the very least, they help build confidence and spark curiosity.

Thank You  
To our *Volunteers!*

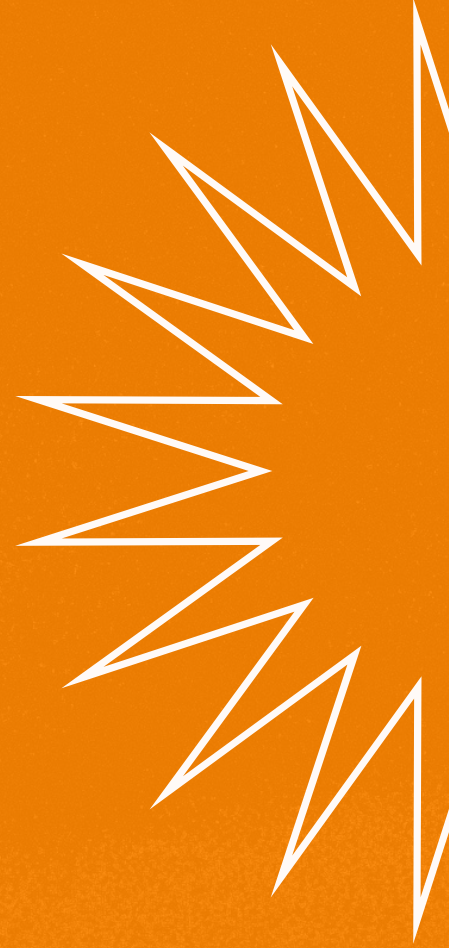

We have had record-breaking  
volunteering during this year's  
summer program!

One of the most cherished  
experiences this summer has been  
the influx of youth volunteers that  
have come from South Grand  
Prairie High School Beta Club and  
the South Grand Prairie High  
School National Honor Society.

**Thank You to Our  
Volunteers, Donors,  
Sponsors & Directors for  
Helping Us Remain  
Successful & Effective!**

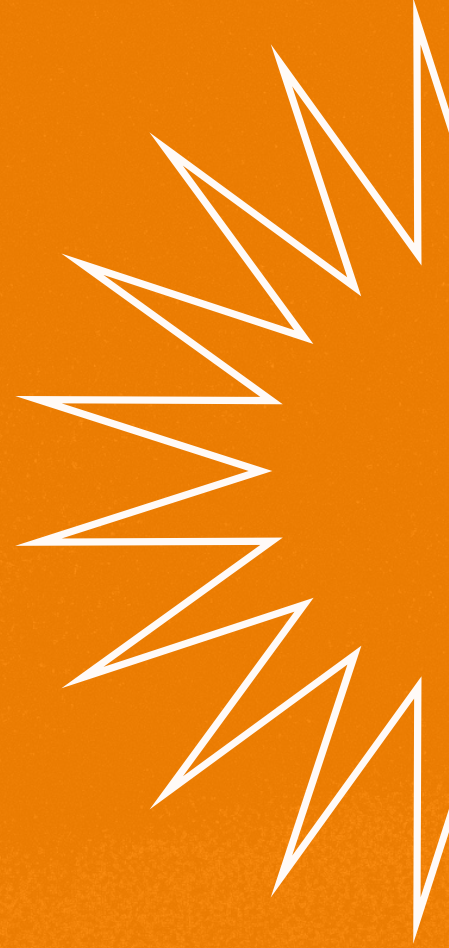

# We Need Your Help:

Many of our students continue to face challenges related to food insecurity, and the need for additional support remains critical. At Expanded Horizons, we are committed to providing our students with nourishing snacks and balanced meals—but sustaining this effort requires continued community sponsorship and support.

We warmly welcome food donations and volunteer assistance to help our programs run smoothly and ensure every child is cared for.

Interested in making a difference? Join us by donating or volunteering.
